EDITORS NOTE: Just to clear the record... the Perlan Glider that recently broke the 400 foot FAA altitude restriction did not fly away from the SSBF flying field or get lost during Hickey Days.

It has been confirmed that the glider did reach an altitude of 76,000 feet and one of the pilots, who graduated from the Air Force Academy, practiced a lot in Minden. However the part about the Graupner radio could not be confirmed as of this printing. BJ
